

## PUPILS UNDER SIX NOT ACCEPTED IN THE CITY SCHOOLS

Board of Education Will Enforce Rule Because of Crowded Conditions.

## TO PROVIDE MORE ROOM

Teachers Assigned to the Various Buildings—Will Be Paid for Institute Work.

Pending the building of new public schools, or of additions to the present ones so as to give adequate room for all children, pupils under 6 years of age will not be accepted in Rock Island. This was decided last evening by the board of education at its regular August meeting. Most of the schools are now so crowded that in some cases it has been necessary to fit up rooms in the basements. So the rule against accepting children under the regular age will be strictly enforced.

Some relief in school conditions is promised by the erection of the proposed new building on the Irving grounds at Twelfth street and Tenth avenue. Announcement was made at the meeting of the board that the property of Mrs. Britta M. Johnson had been purchased to give room for this new structure. Plans for it are well advanced and it is expected that work will be started before the close of this season.

The board decided to again pay all city teachers the sum of \$300 if they attend all sessions of the county institute which opens here Aug. 1.

New Teachers Named.—Upon recommendation of the teachers' committee, the following teachers were appointed for the coming school year: Miss Margaret Conner, assistant in physical education; H. D. Myers, mechanical drawing; G. H. Butts, commercial branches.

The resignation of J. F. Kolb was received and accepted. Miss Nellie C. Fuller was appointed clerk and bookkeeper for the board of education.

Necessary repairs were ordered on engines in Lincoln and High school buildings.

The Standard dictionary was adopted for use in the Rock Island schools. Children will use such dictionaries as they now have. All new dictionaries purchased will be the Standard.

## CONGRESS WILL NOT CLOSE SOON

War in Europe Has Materially Altered Plans of Legislative Leaders.

Washington, D. C., Aug. 19.—The war in Europe has materially altered the congressional situation. Not many weeks ago administration leaders were expressing the hope that the minority would restrain any filibuster against legislation, particularly the anti-trust program, so that the congress might adjourn in ample time for particulars in the fall campaign.

Now the adjournment prospect is postponed by numerous issues and the democrats themselves are putting brakes on legislation.

The legislative pace has been changed from double quick almost to a mark-time schedule. Consideration of the Clayton anti-trust bill is not being hastened. Although most of the important issues involved were very thoroughly discussed. They are again being reviewed in prolonged speeches. Republican senators were ready to vote on the bill Monday, but it seems that all this week at least will be consumed by the debate.

Further assurances that the session will be more prolonged than had been expected became evident when Senator Kern, the majority leader, announced the decision to dispose of the river and harbors bill.
